## FROM THE DESK OF VICE CHANCELLOR

The Thirty-Sixth Annual Report of Rajiv Gandhi University for the academic year 2023-24 reflects our unwavering commitment to excellence in education, research, and community engagement, as we continue to fulfill our mandate as the premier institution of higher education in Arunachal Pradesh and the North East Region (NER).

This year has been marked by significant progress and transformative developments across all facets of the University. We have made strategic investments in infrastructure, digital learning platforms, faculty development, and student support services. Our focus on interdisciplinary research and innovation has led to impactful collaborations and has enhanced our visibility in key areas of academic and societal relevance.

Our dedicated faculty, scholars, students, and alumni have brought laurels to the University through their academic achievements, research contributions, and participation in various national and global platforms. I extend my heartfelt congratulations to all of them.

We have also made strides in aligning our institutional goals with the objectives of the National Education Policy (NEP) 2020. With emphasis on holistic, multidisciplinary education and skill development, we are striving to equip our students not just for employment, but for leadership in a rapidly evolving world.

In our pursuit to realise the noble motto “*Vidya-Amritam-Shnute*” i.e. Excellence and Immortality through the Nectar of Education, RGU has consistently strived for academic and research excellence. As we have evolved as an institution, student intake has doubled, and the University has maintained gender parity and strong representation from socio-economically weaker sections.

RGU was recently awarded Grade ‘A’ in its 3rd NAAC cycle (February 2024), a testament to its quality education and research ecosystem. As a pioneer in implementing the National Education Policy (NEP) 2020, the University has introduced the Four-Year Undergraduate Programme (FYUP), Multiple Entry and Exit system, and a learner-centric academic framework. The Institute of Undergraduate Studies has been established to support FYUP, and Academic Bank of Credit (ABC) IDs have been generated for nearly all students.

Research and innovation continue to flourish at RGU, with several ongoing projects funded by UGC, DST, CSIR, and DBT. Our Institute of Distance Education (IDE) ensures wider access to higher education across the region. The University also maintains affiliations with 45 colleges offering diverse programmes in disciplines of national importance.

State-of-the-art infrastructure, including campus-wide Wi-Fi, an RFID-enabled library, comprehensive medical facilities, and numerous student support cells, ensure a vibrant and inclusive learning environment. MoUs with renowned institutions across the globe strengthen our international academic collaborations.

With a shared vision for holistic development and nation-building, RGU remains committed to nurturing responsible, skilled, and innovative individuals. I invite all stakeholders to join us on this enriching journey as we continue to achieve greater heights in education and societal impact.

Rajiv Gandhi University has been fortunate to be one of the member institutes of this mission and project in Phase-I itself. At Rajiv Gandhi University, in this regard, steps are being taken to strengthen the IT infrastructure first as this would be paving way for the successful completion of the mission.

2. "Computer Maintenance Facility", in the Computer Centre has been set up to troubleshoot the problems brought in by the members of the University community in connection with ICT equipment and peripherals. The Centre has been striving constantly for making the facility available throughout and also offering possible assistance in conducting research, analyzing their data etc.

Smart Theatre is used primarily for smart classroom teaching as well as for conducting videoconferencing, seminars, workshops etc., Whereas Browsing Centre, is used by the University community especially research scholars for research works.
7. In the last few years, Computer Centre has helped the University to implement various e-Governance initiatives by Govt. of India. Some prominent among them are PFMS (Finance), GeM (procurement), Scholarship Portal (National fellowship through DBT), Central University Portal for monitoring, etc. As part of the e-governance initiatives, Project Samarth under MHRD is in progress, making the administrative work efficient and easier. Design and development of the software modules (Intranet) for use by various departments was launched in the year 2015 and is running successfully and the Computer Centre does its maintenance. In the wake of the current pandemic situation also, the Centre has helped support University administration in the online application for examinations and online examinations.
8. As governance is now more adopting e- mode, the Centre has become the epicenter for organizing RGUCET/RGUMPET every year along with part of day to day governance.
9. Since pandemic times, the Centre has played a pivotal role in facilitating various online classes, webinars and all official meetings through virtual mode including interviews for statutory posts through blended mode.

## Report On *Divyangjan* (Differently-abled)

Rajiv Gandhi University implements all provisions of Rights of Persons with Disabilities Act (RPwD) and Guidelines issued from time to time in true letter and spirit in order to empower students and staff with special abilities (*Divyangjan*, connoted as divine body). The University conducts programs to create awareness and accept diversity as a part of human existence in its institutional practices. The University further enables the atmosphere of respect and preserves the identities of the *Divyangjan* students and staff. The university also facilitates teachers with knowledge and skills for using various aids and appliances required to cater to the needs of differently-abled students and make teaching more inclusive and cognizant for their specific needs.

The University is implementing all provisions/reservations for the differently-abled as per Rights of Persons with Disabilities (RPwD) Act and Guidelines for disability categories both in recruitment purposes and academic courses.
